

eleven, has his men at work for the Spring squad, just as though the fate of football were not hanging in the balance. As usual, the squad will contain a few of the veteran players, but mostly such promising new men as Capt. Brewer wishes to develop.

The Athletic Committee has voted to send a reply to the recent resolution of the Faculty regarding intercollegiate football. The reply will not be made public until it has been received by the Faculty at its meeting next Tuesday. It is confidently expected, however, that the committee will report that it is inadvisable to abolish intercollegiate football at present in view of certain reforms by which it is hoped that the incidental evils will be corrected.

The Mott Haven sprinters are kept at work on the outdoor board track. On Thursday the men were timed for 220 yards, and several men broke the track record for that distance. F. H. Bigelow, a freshman, left the figures at 24½ seconds. Another Harvard record was broken at the Roxbury Latin School games, where W. W. Hoyt, '98, cleared 10 feet 8 inches in the pole vault.

CITY COLLEGE BASEBALL GAMES.

A Good Schedule Arranged and Three New Men Needed.

The chances of getting together a good baseball team at the City College this season are exceedingly bright. Of last year's team there still remain in college Kohlman, '96, and Lyons, '98, pitchers; Roberts, '95, catcher; Fuentes, '98, Mahoney, '95, and Patterson, '98, fielders. McSorley, last year's Captain, is away on leave of absence, and probably will play in his usual position, that of third base, again this year. This will leave first base, second base, and shortstop positions to be filled. Patterson, '98, who was elected Captain of the team for this year, is a fine player, being a sure hitter and an exceptionally good outfielder. Manager Harry Curtis has arranged the following games:

March 30—Columbia College, at Columbia Oval.

April 6—New-York University, at New-York.

April 13—Lafayette College, at Easton, Penn.

April 20—Seton Hall, at South Orange, N. J.

April 26—Trinity College, at New-York.

April 27—Rutgers College, at New-Brunswick, N. J.

May 11—General Theological Seminary, at New-York.

May 18—West End Athletic Club, at Somerville.

June 13—Fordham College, at Fordham.

June 18—Cornell College, at Ithaca, N. Y.

June 22—Arlington Athletic Club, at Arlington.

The track athletic team has availed itself of the opportunity to use the Twenty-second Regiment Armory, and the scene there every afternoon convinces one that the College of the City of New-York will make a desperate effort to gain some points at Berkeley Oval in the Spring. The most promising of those in training are Wechsler, ('95,) Roll, ('97,) Cremin, ('98,) in the sprints; Deignan, ('95,) Bennett, ('95,) Gerard, ('98,) in the middle-distance runs; Jellinghaus, ('97,) Geoghegan, ('96,) Allmuth, ('96,) in the mile, and Ottman, ('98,) Schultz, ('98,) and Morrill, ('97,) in the bicycle.

At a meeting last week the tennis association was reorganized and a new board of officers elected. It is: President—Harry J. A. Curtis, '95; Vice President—F. A. Allmuth, '95; Treasurer—G. V. Lyons, '98; Secretary—C. Galicenstein, '95; Manager—H. Fisher, '95; Custodian—W. M. Wechsler, '95.

As soon as the ground is in good condition courts will be laid out and daily practice be encouraged. A certain gentleman connected with the college has signified his intention of presenting a cup to be competed for by the members of the association.

The bicycle club, which has been practically dormant during the Winter, has elected new officers and laid plans for the approaching season.

HARVARD OARSMEN ENCOURAGED

Less Shifting of Positions in the Boat —A Spring Football Squad.

CAMBRIDGE, Mass., March 3.—For the first time in months, four men in the Harvard boat have held the same positions for nearly a week. These are the stern four—stroke, Hollister; No. 7, Stevenson; 6, Shepard, and 5, Perkins. In view of Mr. Watson's methods it would be unsafe to predict that these are fixtures, but the college is encouraged at even this approach to a final arrangement. The bow four receive their daily shaking up, but seem to be crystallizing into the following order: No. 4, Manning or Lewis; 3, Jennings; 2, Fennessy; bow, Bullard, with Watriss and Fox as possibilities.

Hollister and Stevenson ventured on the river in a pair-oar last week. The river is still frozen, but they found a short stretch of open water in which to practice, under the coaching of Capt. Bullard.

No one was surprised at Bullard's election from temporary to permanent Captain of the crew. He has been a faithful worker, and has sobered down wonderfully under the responsibilities of the temporary Captaincy. Fennessy, the only other probable candidate, has been on the second crew for a month, and is hopelessly out of the race for stroke oar, where he has sat for the last two years. Mr. Watson has evidently acted on the theory that Fennessy must get over the idea that he is the best oar in college before he can be of any real use.

Dr. Sargent is endeavoring to restore gymnasium work to the place it held before it was crowded out by the more exciting sports of baseball and football. A meeting of schools and colleges has been called for March 12 at the Boston Athletic Association to organize a gymnastic association. Dr. Sargent's plan is to have a fixed set of exercises on different pieces of apparatus, appointed each year by a committee. Every school and athletic organization should form a team, finally reduced to eight men, these teams to meet in competition during the Winter, and the winners to have a final tournament in the Spring. The points to be marked would be the precision, grace, and finish of the individual and team work.

Harvard is only luke warm on the project of sending an intercollegiate team to England, as might be inferred from her not voting on the question. The principal difficulty lies in the decided opposition of Yale. Harvard men are ready to admit that an American team with no Yale men on it would not be all-American. Moreover, it seems as though Yale had good grounds for her opposition. The trip would interfere seriously with the proposed meeting between the New-York Athletic Club and the London Athletic Club, for to those men who wish to enter both it would mean seven months' steady training—Mott Haven in May, England in July, and the Fall meeting in September or October. Added to this is Yale's claim that it is Oxford's turn for a return match in America, so that altogether Yale's position is a strong one.

Capt. Arthur Brewer of the 'Varsity football
